PROJECTS

Jobs Portal
- Developed a full-stack MERN application for tracking and managing job applications.
- Implemented features for categorizing job applications (e.g., applied, interview, offer, rejected) to streamline the job search process.
- Created a dashboard displaying key statistics and trends, aiding users in monitoring their job search progress.
- Integrated secure user authentication and authorization mechanisms.
- Ensured the application's full responsiveness and accessibility across various devices.
- Jobify (GitHub)

ACHIEVEMENTS AND AWARDS

SIH-2023 **:** Qualified Internal Hackathon
LeetCode **:** 205 Problems Solved
GFG **:** 145 Problems Solved

AREAS OF INTEREST

- Problem Solving
- Data Structures
- Full Stack Development
- Artificial Intelligence
- Machine Learning
